

Story of Joe & Anna Trapani

Meet our friends Joe and Anna Trapani. We met them under unfortunate circumstances as we frequently do in the Restoration Business. Their kitchen, garage and family room were damaged by a water leak in their home approximately 4 weeks ago. We remediated the water damage and turned it over to the insurance company. A week after the remediation was done the Trapani's found out that their Insurance Company denied their claim. The following week, Joe's health declined quickly and he was submitted to hospice care where he passed away May 8th, 2009. We are asking for your help in putting Anna's home back together in this trying time. We have donated our time and labor to make sure her home is returned to a better condition than before her loss. Please join us.

Thank You,

Jon Hall, President
